

HOW DO I ENABLE CLOSED CAPTIONING?

You may enable or disable closed captioning (subtitles) in both the live stream and recordings of our courses.

1. Once the lecture or recording starts, there is an CC icon at the bottom - or top - of your window. Its location depends on the device you are using (computer or iPad). Take some time to discover all the viewing options on your particular device.
2. **Click on the CC icon to find the menu of viewing options.** Familiarize yourself with the two CC options by clicking on each one. Note: please ignore the Audio Transcript option. It is always on in Zoom Webinar.
