

HOW TO AUTOMATICALLY POPULATE LECTURE DATES/TIMES IN YOUR CALENDAR

When you receive your payment confirmation email from audienceview.com, you will see an option to import your course(s) to various calendar apps. Do not use this option. The NBO platform is programmed with the beginning date/time and the ending date/time. That means the entire period would be added to your calendar.

Weekly email reminders from Zoom Webinar and Events have an Add to Calendar option.

Open the email and scroll to the bottom. Click on the appropriate calendar application.

Course C: Voices from the Past

- Jan 8, 2026 1:00 PM - Mar 5, 2026 2:30 PM CST
- Norris University Center, 1999 Campus Drive, Evanston, 60208 US
