

I DIDN'T RECEIVE MY LINK TO LIVE STREAM VIA ZOOM

As of Winter 2026, we have migrated our entire operations to Zoom - due to problems with certain internet service providers (Comcast, sbcglobal, Xfinity) blocking emails from our Northwestern University domain.

As of Spring 2026, students will no longer need to take the additional step of registering on Zoom to receive links to the livestream.

Now all enrolled students automatically receive links to both the livestream and the recordings. Links are sent to the email you provided when you established your NBO account. If you maintain more than one email address, please check all of your in boxes as well as junk/spam and archives folders.

If you still can't find your link, the emails have bounced because you have unsubscribed (intentionally or unintentionally) from Zoom Webinars and Events. Unsubscribing means that you will receive neither livestream links nor recording links. There is an easy fix! Please re-subscribe at this link:

<https://zoom.us/email/self/resubscribe#/>

**To help you more easily manage your in box, please note:
Livestream links come from Zoom Webinar and Events.
Recording links come from Norris Virtual.**
